

# Fall Creek Regional Waste District Sprinkling Credit Application

The sprinkling credit automatically adjusts your sewage bill during the summer to your average usage if your water reading is higher due to watering your lawn.

Water readings for the months of May, June, July, August, and September, but billed during the months of June, July, August, September, and October will be adjusted accordingly.

Please use the consumptions from your FCRWD bill to fill out this form and not your water bill. If you do not have your consumptions, we will fill them in at the office.
